

High-Fidelity Outdoor Music System & Outdoor Cinema

Truly Invisible Latest Innovation: Outdoor Audio

SR6W | SR8WIP68 Outdoor Speaker - White

SR6W | SR8BIP68 Outdoor Speaker - Black

Audiophile quality for your outdoor music system!

IP68 Speaker | No Rusty Grill | Long-lasting

A full-range, high-fidelity, 2-way environmentally protected outdoor speaker utilizing sealed-front radiator technology in an enclosure with no grill or other openings!

The product features Stealth's proprietary Fidelity GlassTM radiating surface made from extremely durable and impenetrable glass fiber that resists elements like salt water, sunlight or harsh temperatures, while providing full and natural sound for music.

We also offer the solution for outdoor cinema by using the outdoor speaker with IP55 Outdoor TV. You can now enjoy your favorite movies with superb sound quality in your garden or courtyard.
